- Wattage standard bulb: 25 W
- Fitting/Cap: B22
- Voltage: 230-240 V
- Dimmable: no
- Lifetime of lamps: 25 year(s)
- Lifetime of lamps: 25000 hour(s)

# Highlights

## Energy efficient

All Philips energy savers save energy from the moment you turn the switch. During their lifetime they use less Kw and thus also result in a lower energy bill. The level of energy saving differs per lamp type and technology.

## Instant start

Immediate light when switching on, that is the promise of our instant starting energy saving lamps.

## Maximum energy saving

When you switch to a Philips LED lamp, you immediate use up to 90% less energy without sacrificing light output and quality.

## Maximum lifetime

On average we have our lamps switched on 2,7 hrs per day and 1.000 hrs a year. The actual burning hours depend on the season (winter vs summer), weather conditions (sunny vs rainy dark day) and on the room where the lamp is used (bathroom vs living room). This LED lamp will last at least 15.000 hrs, thus 15 years.

## No hazardous substances

LED lamps contain absolutely no hazardous materials, making them safe for any room and convenient to recycle.

## Reliable quality

Philips keeps their promises about lamp performance. You can trust what the Philips packaging is saying about light output, lifetime, and wattage equivalent to incandescent lamps.
